

STAFF LIST

Statement of intent

We believe that our children benefit from the contributions made by every member of staff and volunteer. We employ staff with a range of qualifications and experience, as well as from a range of backgrounds.

Aims

We aim to provide the highest standard of care and encourage our staff to continue their professional development and develop their knowledge through further training and education.

A pre-school leader and/or deputy is in charge of each session, supported by Early Years Practitioners. The pre-school leaders must be qualified to NVQ level 4 in Childcare and Education. Our Early Years Practitioners are either qualified to NVQ level 3 or the equivalent. Training sessions and staff meetings are held regularly so that staff can kept up-to-date with current issues and discuss any problems. We are fortunate to have experienced and qualified staff, many of whom have been with us for several years. The staff are the most important resource of any pre-school. They do a very demanding job and continually try to improve the standard of service.

All new staff have Disclosure and Barring checks in place, and are supervised for a period of time before they are allowed to work unsupervised. Following this period, the member of staff is permitted to work without close supervision in any area.
